TO THE ASSISTANT COMMISSIONER FOR PATENTS:

General Electric Company is the assignee of the entire interest in the above-identified patent application and of the invention claimed therein, and the undersigned is an attorney or agent of record in this case.

General Electric Company disclaims the terminal part of any patent granted on the above-identified application and any continuation application thereof which would extend beyond the date on which any patent issuing on patent application Serial Number 09/771,186 would expire if all maintenance fees therefor were timely paid. General Electric Company hereby agrees that any patent so granted on the above-identified application and any continuation application thereof shall be enforceable only for and during such period that the legal title to said patent shall be the same as the legal title to any patent issuing on application Serial No. 09/771,186, this agreement to run with any patent granted on the above-identified application and any continuation application thereof and to be binding upon the grantee, its successors or assigns.

The undersigned is empowered to act on behalf of General Electric Company.

☒ The statutory \$110.00 fee for a disclaimer is requested to be charged to Deposit Account No. 07-0868

(Three copies of this sheet are enclosed.)
